

DISCHARGED EMPLOYEE ATTEMPTS LIFE OF MAYOR GAYNOR

EXECUTIVE SHOT DOWN STANDING ON BRIDGE OF AN OCEAN STEAMER

Wounded Man Rushed to Hospital Where Surgeons Probe for the Bullet After Administering Ether

WOULD-BE ASSASSIN TAKEN INTO CUSTODY

Was Discharged From the City's Service for In- toxication Last January--Big Bill Edwards, Head of Street Cleaning Department Captured Gallagher.

Hoboken, N. Y., Aug. 9.—It was stated this afternoon in a special bulletin issued by the physicians in attendance upon Mayor Gaynor at St. Mary's hospital, that the condition of the patient was satisfactory. His wound is serious, but not necessarily critical. At that time it was announced that an X-ray examination of the wound would be made at once under the direction of Dr. Cole, a specialist of New York, summoned immediately after the shooting. The surgeons will issue a bulletin after the examination.

Hoboken, Aug. 9.—Wm. J. Gaynor, mayor of New York City, prominently mentioned as a Democratic gubernatorial and presidential possibility, was the victim of a would-be assassin shortly before 10 o'clock today. While standing on the bridge of the Kaiser Wilhelm der Grosse, preparatory to embarking for a month's vacation abroad, the mayor was shot down by Jas. J. Gallagher, who is a discharged employee of the department of docks and ferries.

Gallagher fired three shots, but only one bullet hit the mayor. This entered back of the ear, in the region of the mastoid bone, where it buried itself, and so far as a preliminary examination disclosed the injury will not necessarily prove fatal.

After receiving temporary attention from the ship's surgeon, the injured man was rushed in an ambulance to St. Mary's hospital where, at 10:30 o'clock, following an examination by surgeons, it was announced that although desperately injured his chances for recovery are good.

At the time of the shooting, the mayor, accompanied by his secretary, Robert Adamson, Big Bill Edwards, head of the New York street cleaning department, and D. K. Kelley, of the Hoboken police department, were standing on the forward port deck of the big liner, chatting with President Montt of Chile, his wife and members of the president's suite. Gallagher approached the mayor and fired without warning.

Big Bill Edwards, the greatest guard that ever mashed up a line for Princeton, made a spectacular flying tackle, catching Gallagher about the knees, hurling him to the deck with terrific force.

Then Edwards, who tips the scale at 350 pounds, and who is as strong as an ox, sat astride the would-be assassin's chest while Secretary Adamson, after assisting Mayor Gaynor to a chair, sprang upon the prostrate Gallagher, a dock laborer joining in the melee.

Gallagher was taken to the Hoboken police station, where he was arraigned before Recorder McGovern and remanded to jail without bond. He declared that he had shot the mayor because he had been deprived of his "bread and butter." Mayor Gaynor did not lose consciousness, but remained calm and quiet as he was being transferred to the hospital.

Upon arrival there, the stricken man asked that an effort be made to clear his throat of the fast accumulating blood. Ether was administered and Surgeon McVillie of St. Mary's started to probe for the bullet. The mayor was accompanied to the hospital by Rufus Gaynor, one of his sons, who was at the dock to bid him farewell.

In the unlikely event that Gaynor's wound proves fatal, John Murray Mitchell, president of the board of aldermen, and a Republican, would succeed him.

scientist, but remained calm, and quiet as he was being transferred to the hospital.

Upon arrival there he asked that an effort be made to clear his throat of the fast accumulating blood. Ether was then administered and Surgeon McVillie of St. Mary's started to probe for the bullet.

After a delay of half an hour the Kaiser Wilhelm der Grosse cast off and got under way.

At the Hoboken police headquarters, the police elicited the following statement from Gallagher:

"I came over to Hoboken about 9:30 this morning, went to the steamer pier and went on board the Kaiser Wilhelm der Grosse. I met a German man on board of the steamer and asked him to point out Mayor Gaynor to me. He did so and shortly afterward I fired a shot at the mayor. I do not know if I fired more than one shot or not.

"Knowing that Mayor Gaynor was going to Europe this morning to enjoy himself after depriving me of my bread and butter—not porterhouse steak—I was irritated to the point of committing the act. The revolver that you show me," as the desk sergeant brought forth the gun the police had taken from Gallagher, "is the revolver that I used the shooting with. I don't know how many shots were in the revolver when I used it. I have had the revolver a long time in my possession. I carried it when I was in the employ of the city."

Gallagher showed some reluctance about talking and the impression first created that he was a crank was later dissipated. He appeared rational and did not show the least excitement, talking calmly and naturally. He was very bitter against the mayor and indulged in some sarcasm.

After he had made his statement he was taken to the police photograph gallery and his picture was taken. Later his Bertillon measurements were entered. He will be sent to the Hoboken county jail later in the day.

At the moment of the shooting Mayor Gaynor was standing in the companion way under the bridge on the port side, conversing with President Montt of Chile and the latter's wife. Without a word of warning the would-be assassin fired and as the Mayor staggered into the arms of his secretary, Robert Adamson, the blood streamed down his neck from a wound in the back of his head. The injured man was immediately carried to his suite of rooms on the same deck, on which he was standing and was in a couple of minutes attended by the ship's physicians.

In the meantime an ambulance arrived in response to a hurry call and after his wounds had been bandaged the mayor was rushed to St. Mary's hospital in an ambulance.

News of the shooting spread throughout the city with remarkable rapidity and rumors were received from all quarters that the Mayor had died.

As soon as the mayor had been carried to the operating room at St. Mary's hospital all inquiries as to his condition remained unanswered until the result of his wound could be ascertained. This fact was responsible for the flood of rumors that death resulted.

Secretary Adamson accompanied the Mayor to the hospital. At 10:25 Adamson came from the operating room and told the reporters that he did not believe the wounds would prove fatal.

Hastening by automobile from her home, Mrs. Gaynor, the mayor's wife, with her son, Norman, reached the hospital about 1 o'clock. After a long wait Mrs. Gaynor was admitted to the mayor's room. He recognized his wife at once and immediately urged her not to worry about his condition. The mayor cheered cheerfully and smilingly told his family about the shooting. The physicians have promised a bulletin on the mayor's condition at 4 o'clock this afternoon.

Attorney General Denman Makes Ruling in County Local Option Cases Which Has Important Bearing On Local Situation.

Columbus, Aug. 9.—An interpretation of the county local option law that will be of far reaching importance to many sections of Ohio, has been prepared by Attorney General Denman's department. It is in effect that no city or town council has legal authority to employ detectives to secure the enforcement of the Rose county local option law in territory outside of the municipal corporation itself. The opinion was given to W. E. Lytle, of Troy, prosecuting attorney of Miami county.

GREAT DEMONSTRATION FOR SENATOR BAILEY

Convention Hall, Galveston, Texas, Aug. 9.—When the name of United States Senator Bailey was brought up here this afternoon during the state Democratic convention a boom was started for him as the Democratic nominee for president in 1912. The delegates went wild. Flags were run from the walls and the cheering was deafening. The demonstration lasted forty minutes. A committee went after Bailey, who arrived at the hall at 2:30 and the convention again turned loose with wild cheering. Banners were overturned and chairs smashed and the delegates entered into another long distance demonstration.

OHIO DEMOCRATS WILL OPEN CAMPAIGN SEPT. 20

Columbus, O., Aug. 9.—The independent candidates of these there were presiding against Republicans will be taken by the Democratic state organization about Sept. 20 at a place to be determined. From what was gathered yesterday at the meeting of the state executive committee, it is not likely that the campaign will be named in its own name, but chosen.

Active work will begin in the city tomorrow when Chairman Hiram L. Nichols, Secretary William Marshall, and the head of the city's Annex Building, where an election has been secured, Chairman Nichols will bring his family to Columbus and remain in the city until the election is over.

M'MURRAY AFTER BIG COMMISSIONS IN LAND DEALS

Attorney Flooded Washington With Telegrams Urging the Approval of Contracts it is Alleged

HAMON CLAIMS CREAGER BORROWED MONEY

Number of Indians Testify and Complain of Uncle Sam's Slowness in Getting Their Claims-- Committee Will Rule on Creager's Ex- amination by M'Murray's Agent.

McAlester, Okla., Aug. 9.—The congressional committee probing the charges of bribery brought by Senator Thomas Gore, learned today that the telegrams which poured into Washington last May, urging the approval of the McMurray contracts, were prompted by Judge J. F. McMurray, who would have received three million dollars in commissions had his contracts been approved.

McAlester, Okla., Aug. 9.—A charge that Congressman C. E. Creager, of the Third Oklahoma congressional district, had solicited "sums" of money from J. F. McMurray, holder of the Indian land contracts that are being subjected to a congressional investigation was made by Jake L. Hamon, before the special committee appointed by the house of representatives.

The charge developed in connection with the inquiry into Senator T. P. Gore's declaration that he had been offered a \$25,000 or \$50,000 bribe to help "put through" congress the McMurray deal, by which he asserted McMurray and his associates would be able to secure \$5,000,000, or 10 per cent, as attorneys' fees in the sale of 450,000 acres of coal, asphalt and timber land now belonging to the Indians in this state.

Senator Gore said Hamon had offered the bribe in McMurray's behalf and Congressman Hamon also had testified that he (Creager) might secure an "interest" in the contracts if he helped to remove all opposition to their approval by congress and President Taft.

Appearing before the committee, Hamon made the counter charge against Creager. He said the congressman had solicited money from McMurray during the pendency in congress of a bill which had been drawn up by McMurray, and which Creager introduced. This bill provided for the sale of the surface lands to private individuals and for the sale of the mineral wealth to the government.

Although the McMurray contracts were not referred to in it, the bill, Hamon said, was so termed that McMurray might have been enabled to put in a claim for the attorney's fees. The measure, however, was not passed.

"I want Mr. Creager recalled to the stand to answer these charges," said Hamon. "I want him to explain why just after he introduced the bill, he went to McMurray and under the

HEALTH AND BEAUTY TALKS

BY MRS. MAE MARTYN.

Cinderella! Merely because your husband is hopelessly bald after wasting so much money buying ready-prepared hair tonics is no reason why you should neglect your hair. By simply adding a half pint water to one ounce quinine dissolved in a half pint water, you can make a simple hair tonic that will positively destroy the fungus in the scalp, stop all irritation, itching and falling hair, remove dandruff and put your scalp in a healthy condition. This tonic will not stain the hair and will prove very refreshing and invigorating; rub it into the hair roots about twice a week and it will make your hair soft and glossy.

R. F. D.: Yes, a white summer dress makes a stout girl look better. You can reduce your weight by dissolving four ounces of potassium in five pints of hot water and take a tablespoonful before each meal for two or three weeks. This potassium will cause your skin to break out in small pimples, but this is a good effect, and you will feel better when you are rid of that suffocating fat.

H. D. C.: This is the recipe for your hair. Mix one ounce of potassium in five pints of hot water and take a tablespoonful before each meal for two or three weeks. This potassium will cause your skin to break out in small pimples, but this is a good effect, and you will feel better when you are rid of that suffocating fat.

E. W.: Why don't you try going without spectacles for a while? You say there is no constitutional defect in your eyes, and that spectacles make you look ten years older than you really are. Let me and you try it. Put a drop in each eye daily of a few drops of a simple eye tonic made by dissolving an ounce of crystals in a pint of water. This tonic cures tired eyes, relieves redness and inflammation, and strengthens weak eyesight. It has proven so beneficial as an eye remedy that many oculists now resort to it exclusively, and I know it will help your eyes greatly.

Donna: Massaging with a good greaseless face cream is the best preventative in the world against wrinkles and the appearance of age. It keeps the skin taut and clean and the

flesh firm and free from babbiness. Get from your druggist one ounce of ammonia, dissolve it in a half-pint of cold water, add two teaspoonfuls of glycerine, stir well and let stand over night. This home-made cream cleanses the pores as nothing else can, for it takes out dirt and grime that soap and water never reach. It removes blackheads and prevents their return for it keeps the size of the pores and makes the skin finer in texture. I have a friend, who is a grandmother, whose complexion rivals that of a sixteen-year-old girl and she never used anything except ammonia cream to preserve her youthful skin.

J. E. M.: The electric needle for the removal of superfluous hairs is an expensive, painful and time-consuming operation. A much easier and far less expensive method is the application of a solution of salicylic acid. One ounce is all you will need, however, for even should the hairs return after the first application, they will be light-colored, thin and straggly—and the second or third application will rid you of them permanently. Just mix a little salicylic acid with enough water to make a paste, cover the hairs with this and let it remain two or three minutes. Then wipe off and wash the skin with warm water.

A. F. D.: You are using too much ammonia for one shampoo and are repeating it too often. You need only a cup of hot water, not a tablespoonful. No, the quantity you have been using will not injure your hair in the least, for ammonia is in no way harmful. It will not cause the hair to become greasy, dull or brittle, or split at the ends, as some soaps do. But ammonia lathers so freely and changes the hair and scalp so thoroughly that it is unnecessary to use more than a few drops of a shampoo. I am pleased to hear that you liked it because it dries quickly and leaves your hair so bright, soft and fluffy.

A. A.: Of course, you cannot look bright and happy while you feel so utterly prostrated and miserable. Pimples, blotches and "puffy eyes" are usually an indication of inactive liver, deranged digestion and impure blood. Get your stomach and liver in normal action and they will eliminate the impurities in your blood. This out-of-fashion, home-made, system tonic has helped others and may help you. It is certainly worth trying. Dissolve one ounce of karoene and one-half ounce of sugar in a half-pint of alcohol and add enough hot water to make a full quart. Take a tablespoonful before each meal. When your health is good, you will not be vexed with a spotted and dingy complexion.

GLEEKER-CLAGGETT.

A very pretty home wedding was solemnized Tuesday morning at 11 o'clock at the home of the bride's mother, Mrs. Charles McKnight, of 35 Broadway avenue, when Julia E. Claggett, the daughter of Mr. and Mrs. John Claggett, was united in the holy bonds of matrimony to Mr. Carl Gleecker. The marriage was solemnized in the east parlor of the home, and was witnessed by the members of the immediate families. At the wedding music furnished by Miss Josephine Seward, her E. E. Vernon performed the ceremony which made them one. Miss Helen Gleecker and Mr. Everett Claggett acted as bridesmaid and best man. The bride was beautifully attired in blue corded silk and the bridesmaid wore an embroidered dress of white. Both carried pink and white carnations. The house was decorated with ferns and potted plants. At high noon an elaborate three-course dinner was served. Those seated at the table were the bride and groom, Mr. and Mrs. Carl Gleecker, Mr. and Mrs. John Claggett, Mr. and Mrs. Charles Gleecker, Mr. and Mrs. Charles McKnight, Miss Helen Gleecker and Annabelle Seward, and Mr. Everett Claggett. The charming daughter of Mr. and Mrs. John Claggett of Bedford, the groom being a prosperous farmer of Newton township, and a son of Mr. and Mrs. Charles Gleecker.

The bride received many beautiful and useful presents. The happy couple will leave Wednesday morning for a few weeks' visit with relatives in Star City and Kewanna, Ind., and Paris, Ill. They will be accompanied by the groom's father and mother on their trip.

ECZEMA—A GERM DISEASE CAN NOW BE CURED.

The Medical profession is all agreed that ECZEMA is a germ disease, but the thing that has baffled them is to find some remedy that will get to the germs and destroy them. Zemo, the clean, external treatment has solved this difficulty by drawing the germs to the surface of the skin and destroying the germ life that causes the diseases. The whole method of treatment and cure by ZEMO is explained in an interesting book on the subject issued by the makers of ZEMO. It tells how to cure yourself at home of Eczema, Blackheads, Pimples, Dandruff, and all diseases of the skin and scalp. Call at T. J. Evans' Drug Store for Booklet and learn more about this clean, simple remedy that is now recognized the standard treatment for all diseases of the skin and scalp.

SOLDIERS ON DUTY DURING STRIKE TO RECEIVE PAY SOON

Columbus, Aug. 9.—The state of Ohio succeeded today in getting hold of \$60,000, practically every cent of which will be paid out within the next few days to the soldier boys who did strike duty in Columbus. For a time it looked as if the militia would have to wait for an appropriation by the legislature next January before getting its pay. The emergency board voted the necessary \$60,000, but under the peculiarities of the statutes there was no way of getting the money except to borrow it. Auditor Fullington solved the difficulty by getting the money from the New First National Bank, the state's active depository, without paying any interest. Treasurer Creamer merely deposited \$60,000 of state funds in the bank and a few moments later the state borrowed it at the same interest rate that the bank would pay the state. The bank got nothing for its trouble except a few kind words from the auditor.

In Middleboro, Ky., this evening will occur the marriage of Miss Patricia Fullerton, a charming young woman of that town, to Mr. Frank Hillier, son of Mr. and Mrs. Charles Hillier of 296 West Church street, this city. Mr. Hillier has been located at Middleboro, Ky., for a year or more and during that time met the girl whom he will make his bride. The wedding will be solemnized at the home of the bride's parents and among the guests will be Miss Cassie Hillier, sister of the groom of Newark.

The Philoxenia club was entertained on the club day by Miss Ocie Miller at her country home on the Granger road. The afternoon was pleasantly spent in sewing, followed by the serving of a dainty repast to the members and guest, Miss Bertha Crilly. The club will meet September 10 with Miss Ethel Deming.

Mrs. Louise E. Core and daughter Kathryn, 150 North Grant avenue, left Saturday for Buckeye Lake, where they will occupy a cottage for a week. Miss Helen Core, who has been visiting with friends in Newark will join them at the lake.—Columbus Dispatch.

The annual reunion of the family of Mr. and Mrs. Thomas Williams was held last Sunday at their home at Union Station. Besides their children, grandchildren and sons-in-law, many of their friends gathered in honor of the occasion and participated in the joyful festivities of the day. The weather being cool and clear, a spread of four tables was served beneath the shade trees in regular camping style.

WOMEN

Who Lead Fashionable Society at Narragansett Pier Caught in a Gambling Raid.

Narragansett Pier, R. I., Aug. 9.—There is consternation here in the higher society circles of this fashionable resort because of the fear that Constable John G. Cross, who conducted a gambling raid at the Narragansett Pier Club Sunday may make known the names of the men and women prominent in society who were on the premises.

Prominent matrons personally or through emissaries have besought the officer all day not to give out their names, and Constable Cross so far has complied.

"To publish the names would give unnecessary pain and cause unnecessary embarrassment," he said last night.

There were upwards of 30 society women in the crowd gathered about the roulette wheels and other games of chance that it is asserted were in the club house at the time of the raid, according to Mr. Cross.

President Thompson Compares Troubles in Capital City With Those in Newark July 8.

Columbus, Aug. 9.—Dr. W. O. Thompson of the Ohio State University, took the ninth chapter of Romans as the basis of a discourse at the Broad Street Methodist church. "The powers that be are ordained of God," he read. "If Paul could say that of Nero (who played the violin as Rome burned), I am not afraid to say it of George Marshall or Judson Harmon."

He declared that the outbreaks in Columbus were akin to that in Newark, and in each case a price would be paid in the future. If people realized that they were for a time in the grasp of their own baser passions, and that they ought not to be, then a valuable lesson may be gained even from such times.

"We should hold ourselves in strict conformity to the constituted authorities and not let sentiment or passion or acts begotten by them becloud and distort our judgment and render it of little value," he said.

COLUMBUS MEN

In Party of Wrecked Mariners Which Was Tossed for Hours in Lake Erie.

Columbus, Aug. 9.—Several Columbus men were in a party which had a lively time on Lake Erie Sunday night. After being tossed hopelessly about the lake in a disabled launch for several hours, a party of fishermen which included Federal Judge Killebrew and other jurists, was rescued at midnight, three miles off Lakeside, by government life savers.

Among those in the stranded boat were Judge J. M. Killebrew, recently appointed to the federal bench in the northern district of Ohio, and H. A. Bishop of Toledo. Judge T. M. Bigger, Joseph Willis, H. A. Kellebrew and H. H. Tremaine of Columbus, E. A. King of Bellevue and U. G. Sanger of Denver.

The launch engine broke down late in the afternoon and the launch drifted helplessly in the dark until the hail of a scared and hoarse jurist was heard by the life savers, who had been searching for hours.

U. G. Sanger, mentioned in the above dispatch, was formerly a teacher in the Newark high school, being in charge of the department of physics. He went to Colorado from Newark.

DEAFNESS CANNOT BE CURED

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound and imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be impaired forever. HENRY HANDLEY WILL CELEBRATE 100TH ANNIVERSARY

Jacksontown, Aug. 9.—Tomorrow the friends and neighbors of Henry Handley, the oldest resident of Licking county, will help him to celebrate the 100th anniversary of his birth. He was born August 10, 1810, in Loudon county, Virginia, and came to Licking county at the age of 18 years. He has lived in the county ever since.

Mr. Handley, while not active, is able to care for himself and walk about the house. He is suffering, slightly from impaired eyesight, but enjoys life just the same.

He has lived to see Licking county develop from a wilderness to a community of advanced prosperity. He is one of the few who have lived to see the passing of the American Indians from their native haunts.

JERE LILLIS

Who Was Slashed With Knife By Jack Cudahy, Denies Rumor of Marriage.

New York, Aug. 9.—Following the receipt of a dispatch from Kansas City to the effect that Jack Cudahy, son of the millionaire packer, and who last March attacked and slashed Jere S. Lillis, a Kansas City banker, is planning a suit for divorce, Mr. Lillis was discovered by a reporter in a hotel in this city.

Mr. Lillis declared he had severed acquaintance with the Cudahys, and denied the report that he was to marry Mrs. Cudahy if she or her husband obtained a divorce. It was because he was found in the Cudahy home that Lillis was attacked with a knife by the packer's son.

"I regard that incident as closed," said Mr. Lillis. "I am here on a personal trip to see my sister and remain until fall, and I am not bearing myself about the family affairs of the Cudahys."

"It has been said that you contemplated suit against Cudahy for his attack upon you," the banker was told.

"I do not contemplate any suit," he replied, "and I shall have nothing more to do with the Cudahy family."

SUMMER MEETING OF HORTICULTURALISTS THURSDAY, AUG. 18

The 1910 summer meeting of the Ohio State Horticultural Society will be held at the Ohio Agricultural Experiment Station, Wooster, O., Aug. 18. Inasmuch as orchard spraying not only remains of permanent interest, but is now undergoing changes and development of unusual moment as relates to fungus and insect control, the first session will be devoted wholly to various phases of this subject. The second session will be devoted to different subjects, all of which will be of interest and value to the members and visitors.

Following is the program:

First Session, 1 P. M.

Demonstrations with different types of spraying machinery and nozzles, showing these in actual operation out of doors.—W. H. Goodwin.

Notes on Fungus Control.—A. D. Selby.

Entomological Bearings of the Lime-Sulphur Spray When Used as a Substitute for Bordeaux.—H. A. Galsard.

Discussion.

Second Session, 7 P. M.

Fusarium Blight and Dry Rot of the Potato.—Thos. F. Manns.

Notes on Some of the Finer Ornamental Trees and Shrubs.—W. J. Green.

Notes on Vegetable Work at the Station.—Joseph G. Gourley.

Discussion.

The forenoon and early evening of Thursday and the forenoon of Friday will be devoted to studying the various lines of work in progress at the Experiment Station farm, an excellent opportunity which this meeting will afford the many members of the Horticultural Society who have not previously visited the Station farm.

Everybody welcome. Come and help us make this an interesting and helpful meeting.

Wooster is located about half way between Mansfield and Canton on the main line of the Pennsylvania railroad between Pittsburgh and Chicago and is very easily reached from all the northern half of Ohio. From southeastern Ohio Wooster is reached either over the Valley Junction & Marietta railroad, changing at Canton, or by way of Newark and Mansfield, changing at the latter place. From southern and southwestern Ohio proceed by way of Columbus and from thence either over the Big Four to Crestline or the C. A. & C. to Orrville, where change of trains will enable the visitor to reach Wooster from east or west on the main line of the Pennsylvania railroad.

FELL INTO A MANHOLE

Gas Electric Light and Traction Systems of Cincinnati Business District Endangered Last Night.

Cincinnati, Aug. 9.—Slipping hind feet foremost into a manhole that led to a conduit, a struggling horse last night endangered the gas, electric light and traction systems of the downtown section of Cincinnati for more than an hour.

The conduit carried pipes and feed wires and the iron clad hoofs thrashing about among these tore the insulation and threatened to short-circuit the wires or communicate the electric current to the iron pipes full of gas.

The accident occurred directly in front of the city hall at the corner of Eighth and Plum streets, where Gray Jim, the horse, slipped on the asphalt and knocked off the cap stone of the manhole.

A score of volunteers ran to the assistance of the driver, but despite their efforts, the animal slid backwards inch by inch, until he was entirely beneath the street. A glance showed that he was resting on a bed of electric wires. Alarms were sent to the fire and police departments, the electric light, gas and traction headquarters, and as the various wagons and repair equipments raced to the place, a crowd that blocked the thoroughfares for several squares gathered.

For an hour and a half the various rescue forces worked at cross purposes. Some were for tearing open the conduit to save the horse; others for tearing the horse to pieces to save the conduit. Finally a heavy derrick was rigged over the manhole and the animal was hauled out.

Although nearly choked to death in the process, Gray Jim disdained to ride in an animal ambulance and walked back to the stable, cheered by thousands of spectators in a manner that the winner of a derby might envy.

GALLANTRY COSTS BROOKLYNITE LIFE

New York, Aug. 9.—Gallantry in surrendering his seat on a crowded car to a woman cost John Wohlner, 36, his life here early today. Wohlner was riding on a Brooklyn trolley car and arose to give a woman his place. Stepping to the rear platform he stood on the running board. A lurch of the car threw him from the platform to the pavement. His neck was broken.

SAYS RACING GAME KILLED

Newark, Aug. 9.—Enoch Wishard, who has trained many horses for John A. Drake, both in America and England, and who is regarded as a leader in this branch of the turf, has sold his home at Sheephead Bay, and will remove to France.

"They have killed the racing game in America," said Wishard, "and it will be many years, if at all, before it is revived. I cannot now see how racing can ever again be popularized in America."

GRANVILLE

Granville, Aug. 9.—Miss Helen Monroe, one of Granville's most estimable women, died at her home in this place on Monday morning at 8 o'clock after an illness of 12 weeks. She was born at Adams Mills, Muskingum county, on October 11, 1833, and was therefore in the fifty-seventh year of her age. The deceased graduated from the old Granville Female College in 1874, after which she went to Dresden, where she made her home for a number of years, removing to Granville about twenty-five years ago, and living here ever since. She was a good Christian woman and had been a life long member of the Presbyterian church. She saw only the good and succeeded in pointing out the blessings of God to others; she had an unusually bright mind and a good memory. She was a woman who was highly respected by all who knew her, and many will remember her kindly greetings. She is survived by one sister, Mary, who lives in Granville, and one brother, Charles, whose home is in Columbus. She was patient as a sufferer, a beautiful character, and went about doing good. She was a kind friend and neighbor, loved and highly esteemed by all who knew her. The funeral services will be held from her late home on Wednesday afternoon at 2 o'clock, conducted by the pastor of the Presbyterian church, the Rev. Mr. Newell, and the interment will be made in the beautiful Maple Grove cemetery.

Mr. and Mrs. William Henderson of Springfield, O., who have been visiting friends and relatives here during the past week, returned home Monday evening.

Davis Bird, a well known horseman of Toledo, O., was in the village on Monday for a short time.

Granville is growing—that is she is growing a reputation for having more young hoodlums to the square inch than any other town of similar size in Ohio, and if something is not done the hoodlum element will soon be in possession of the town. For the past several nights a gang of boys have been carrying things with a high hand. Only a night or two ago they rolled a barrel of lubricating oil from the freight truck, that was standing in front of the interurban station, bursting the barrel and causing the black oil to flow all over the sidewalk. Monday night nothing was left on the big truck so they concluded to bust up the truck, which was done most thoroughly. The Ohio Electric people should offer a reward for the apprehension of the guilty parties and an example should be made of them.

The marriage of Mr. Wilfred R. Owen of Newark, and Miss Maria E. Nichol of Granger street, this place, will take place in the Presbyterian church at seven o'clock Tuesday evening, the Rev. Mr. Newell officiating.

Miss Catharine Oden of near Palmetto, Ga., who has been visiting relatives and friends in this vicinity for some days, has returned home.

MIDDY

Who Refereed Pie-Eating Contest Goes to the Biggest Battleship of the Navy.

Washington, Aug. 9.—Pie-eating contests are expected to become popular at the naval academy at Annapolis. Midshipman H. O. Roesch, who escaped a court-martial for refereeing one, has been assigned to the new dreadnought Delaware.

When Roesch umpired the contest Superintendent Bowyer wanted him court-martialed. The navy department held the thing was too trivial for official notice, as Roesch had merely supervised it and it was not an attempt at hazing. His graduation which was being held up, was immediately allowed, and his assignment to the biggest battleship of the navy followed.

Roesch is the crack rifle shot of the army and navy.

HAPPY RESULTS

Have Made Many Newark Residents Enthusiastic.

No wonder scores of Newark citizens grow enthusiastic. It is enough to make any one happy to find relief after years of suffering. Public statements like the following are but truthful representations of the daily work done in Newark by Doan's Kidney Pills:

Amos Frey, Toboso, near Newark, Ohio, says: "I have been entirely free from kidney trouble since Doan's Kidney Pills cured me over eleven years ago. I suffered severely from pains through the small of my back and they were always aggravated by the least exertion. If I sat in one position for any length of time, my back became so sore that I could hardly rise. I took several remedies but the relief I obtained was slight and I continued to grow worse until I was in a serious condition. I finally read of Doan's Kidney Pills and as they were highly recommended for complaints similar to mine, I procured a box at Crayton & Co.'s Drug Store. They lived up to representations, going directly to the seat of my trouble and ridding me of all pain. I have always endorsed Doan's Kidney Pills highly and I deem it a pleasure to do so, whenever an opportunity occurs."

HEBRON RESIDENT OFFERS SUGGESTION

(Communicated.) Hebron, O., Aug. 9.

Editor Advocate: As a constant reader, will you allow me space in your valuable paper to make a few inquiries or offer a few suggestion. I see an article or two in your paper on the trouble with the engineer at your municipal light plant, and as I happen to know something about this (being called down to Newark by phone on Tuesday of last week) I think it is plain to every one connected with this where the trouble lies. The remark has been made that "municipal ownership does pay." Now let us ask why. In the first place, a plant of this kind belonging to a company is conducted on business principles and men are employed for the different positions who are qualified to fill them. The first question asked is what experience have you had? Now Newark has plenty of engineers that can start that engine and keep it running and give the city good service. Why are they not in there? You have an organization in your city of stationary engineers, not organized for strike purposes or to create trouble, as seems to be the idea of some, but to educate themselves in their profession.

Subjects and troubles appertaining to occupation are discussed at every meeting. They have their educational committee that keeps this school going, and had your superintendent or board of service called on James McFarland, they would have been furnished an engineer who could not only "start" the engine, but take care of it while running.

Mr. McFarland is secretary of Miller Association, No. 10, N. A. S. and every member is examined as to his qualification when he is admitted to membership and he would not recommend a man not competent. But so long as the business transacted last week in your plant continues, municipal ownership will be a failure. Very respectfully, A. HICKERSON.

M'MURRAY

(Continued from page 1.) send telegrams to President Taft urging him to approve the sale of the land on a 10 per cent "attorneys' fee" basis, was the burden of most of the Indians' testimony.

"We have become used to the 10 per cent idea," declared Parke Anderson, a Choctaw. "Most of the Indians in this state have to pay 10 per cent on all debts and borrowed money. We have become so dependent on attorneys that they have a hand in almost everything we do."

"Do you mean to say to sell your land you are willing to give McMurray \$3,000,000, or enough to buy all the lawyers in Oklahoma?" asked Congressman C. B. Miller.

"Yes, we have waited so long for the government to act that we would give 5 per cent if that would cause a quick sale. We need the money to develop the land on which we live."

It was estimated by C. C. Chate, another Choctaw, that if his land was sold through the McMurray contracts his share would be \$5000, with a reduction of \$500 in fees.

"Now," he said, "I would rather wait until the government gets and get \$5000 when I am dead."

"Why is it that while you have attorneys paid on a regular salary and approved by the government, you employ special attorneys?"

"Because our regular attorneys get paid whether they work or not, while the special attorneys on a contingent fee work because they expect to be paid."

A singular appearance was presented by Charles Laffore, a Choctaw, who, as captain of police, has figured in many a battle of the plains. He has only one eye, three of his fingers were shot off and his body was covered with bullet wounds.

Asked about the activity of McMurray's agents, he related that he had been approached by George W. Scott, acting for McMurray, and had been induced to sign a telegram, the wording of which he had not dictated, this being a telegram addressed to Richard A. Adams of Washington, an attorney and a chief of the Delaware Indians.

The substance of that telegram was that the Indians approved of the

contracts and asked Adams to call on President Taft and urge him to sell the land without delay.

"Who did you think Adams was?"

"Why, I thought he was somebody with powerful influence who could go to the president and congress and tell them what he wanted. We were not so anxious to give up 10 per cent but we thought it would be better to sell on that basis than not to get anything at all. We were in the dark as to how matters stood at Washington, but we thought Adams would be able to fix things all right."

The committee may rule today as to whether Congressman Creager may be examined by Jacob L. Hamon as to his alleged attempt to collect money from McMurray in the guise of loans, as stated by Hamon yesterday.

INDIANA PASTOR COMES TO NEWARK

The Advocate telegraph service this afternoon brought the information that the Rev. H. L. Mann of Shelbyville, Ind., has resigned his charges in that city to accept a call to the pastorate of the Christian Union church in this city. He will begin his labors the first Sunday in September. An effort was made to see Rev. E. S. Dillin, pastor of the church, in regard to the matter, but he could not be located. It is understood, however, that Rev. Mr. Dillin will accept a call to the Christian Union church in Coshocton.

DRIVEN FROM HIS SHIP BY MOSQUITOES

Key West, Aug. 9.—Driven from his ship by the attacks of mosquito hordes at lumber camps in the Everglades, Captain Graham Lowe of the schooner Emerald, made a 45-hour journey to this port without food or water, and 18 hours were spent desperately clinging to the bottom of a small boat in which the trip was made. The Emerald's crew of six negroes did not mind the mosquito bites. They refused to man the schooner and leave the swamp with their captain. An expedition will be sent to search for them.

PHYSICIAN ENTIRELY CURED OF ECZEMA

By the Use of Cuticura Remedies. Prescribes Them and Says They have Cured when Other Formulas Failed. They Always Bring Results.

"My face was afflicted with eczema in the year 1897. I used the Cuticura Remedies and was entirely cured. I am a practicing physician and very often prescribe Cuticura Remedies and Cuticura Soap in cases of eczema, and they have cured where other formulas have failed."

"I am not in the habit of endorsing patent medicines, but when I find remedies possessing true merit, such as the Cuticura Remedies, do not am I broad-minded enough to proclaim their virtues to the world. I have been practicing medicine for twenty years, and must say I find your Remedies A No. 1. I still find the Cuticura Remedies as good as ever. They always bring results. G. M. Fisher, M.D., Big Pool, Md., Dec. 4, 1909."

DOCTOR RECOMMENDED THE CUTICURA REMEDIES.

"When I was ten or twelve years old I had a scalp disease, something like scald-head, though it wasn't that. I suffered for several months and most of my hair came out. Finally they had a doctor to see me and he recommended the Cuticura Remedies. They cured me in a few weeks. I have used the Cuticura Remedies, also, for a breaking out on my hands and was benefited a great deal. I haven't had any more trouble with the scalp disease. Miss Jessie F. Buchanan, R. F. D. 3, Hamilton, Ga., Jan. 7, 1909."

Dr. Pierce's Favorite Prescription

Is the best of all medicines for the cure of diseases, disorders and weaknesses peculiar to women. It is the only preparation of its kind devised by a regularly graduated physician—an experienced and skilled specialist in the diseases of women.

It is a safe medicine in any condition of the system. THE ONE REMEDY which contains no alcohol and no injurious habit-forming drugs and which creates no craving for such stimulants.

THE ONE REMEDY so good that its makers are not afraid to print its every ingredient on each outside bottle-wrapper and attest to the truthfulness of the same under oath.

It is sold by medicine dealers everywhere, and any dealer who hasn't it can get it. Don't take a substitute of unknown composition for this medicine of known composition. No counterfeit is as good as the genuine and the druggist who says something else is "just as good as Dr. Pierce's" is either mistaken or is trying to deceive you for his own selfish benefit. Such a man is not to be trusted. He is trifling with your most priceless possession—your health—may be your life itself. See that you get what you ask for.

Unparalleled Offering For Fiction Lovers

Truly, this is "short story" time—when you hunt for breezes at the seashore or in the hills, when you make a business of being lazy, and want to read nothing that isn't short, and good, and so thoroughly interesting that everything—even the weather—goes unnoticed.

HAMPTON'S

August On Sale Now 15 cents

Take this August number, for instance. You will find it actually stuffed with story-delight. Don't these names and titles signify some pleasant half hours?—

O. Henry—Here is the story upon which this master story teller was at work up to the time of his recent death.—"The Snow Man."

Gouverneur Morris—In "Practice Makes Perfect" the August "HAMPTON'S" has a deliciously humorous love story, in the very best style of this favorite writer.

Frederick Palmer—A spirit-stirring tale of airship adventure, "Convincing the Imperial Attache," with Danbury Rodd for the hero.

Martha Bruere—Another treasure in the August "HAMPTON'S" is Mrs. Bruere's "Spiritual Bond,"—the tribulations of two "Affinities" in a certain fashionable suburb.

"Chanteclair"—The greatest romance of the greatest of all French romanticists, Edmond Rostand.

Many other leaders give of their best for the summer numbers of "HAMPTON'S." Edwin Balmer and Wm. B. MacHarg continue the stories about "Luther Trant," the young psychological detective. Arthur Stringer excels his Wire Tapper stories in his "Adventures of an Insomniac." George Randolph Chester's brilliant wit furnishes a new series. George Fitch and Owen Johnson will generously give of their humor.

Also In This Issue:

"Is Roosevelt Inevitable" by Judson C. Walker. "The Final Figure" of Commander Peary proving his Pole Discovery. A great article by Charles Edward Russell on Railroad Regulation which does not Regulate. A valuable and witty description of "Fake Dramatic Schools" by Henrietta Crossman. "A Fighting Chance for the City Child" by Rheta Childs Dorris.

HOLOPHANE GLASS COMPANY WRITES LETTER

TO WHICH BOARD OF TRADE
SENDS REPLY CONCERNING
CONDITIONS HERE.

Correspondence Grows Out of the
Tragedy of July 30th—May En-
large the Local Plant.

For several months the Newark Board of Trade has been negotiating with the Holophane Glass Company in an effort to induce the Holophane men to bring the steel reflector plant from Philadelphia to Newark. In this connection the following correspondence between the Holophane company and the local board of trade will be of interest:

New York, Aug. 3, 1910.
Newark Board of Trade, Newark, O.
Gentlemen: As some of the members of your body have informally learned, the Holophane Glass Company has been seriously considering materially increasing its manufacturing plant in Newark. In view of the apparently inefficient and inadequate production which the city of Newark has heretofore given and which culminated in the lamentable climax of July 30th, the executive officers of the Holophane Glass Company have at present not only dismissed the consideration of increasing the plant in Newark, but are seriously contemplating moving away from Newark entirely.

We trust, however, that public sentiment in Newark will be aroused to the extent of insisting upon the maintenance of an honest and able city administration. If such a movement takes place and we feel that it is on a permanent and decided basis, the Holophane Glass Company would be glad as a corporation and as individuals to do anything in their power to aid such a movement.

At the present time the Holophane Glass Company is postponing definite action in regard to its plant until its officers are convinced that the citizens of Newark will insist upon a city administration which will insure protection to the industries and individuals within its jurisdiction.

We feel that the expression of public sentiment should be made in an undebated terms through such organizations as your own and the entire mass of the city.

Very respectfully,
HOLOPHANE GLASS CO.,
Robert Kelly, Jr., Gen. Mgr.
Board of Trade's Answer.

Newark, O., Aug. 8, 1910.
The Holophane Glass Company, 50
Church Street, New York.

Attention Mr. Robert Kelly, Jr.
Gentlemen: Your letter of the 3d inst. has been brought to the attention of the directors of the Newark Board of Trade and by authority of said Board we are pleased to reply. It is not necessary for us to express regret over what has happened. The action of the Board of Trade, taken immediately after the tragedy of July 30th, expressed our sentiments fully and emphatically.

It is with present and future conditions that we are concerned, rather than the past. We are looking to what has been done only that it may guide us in present and future action. The business interests of Newark united in demanding the immediate resignation of both the mayor and the sheriff, and both resignations were promptly secured. The press of the city is united in a demand for law enforcement and the grand jury has been in session for four weeks and is still engaged in probing the Etherington lynching. Nearly 50 arrests have been made.

The order has gone forth for a "clean up," and Newark is being cleaned up in genuine and efficient manner. The officers, backed by united public sentiment, demanding a better order of affairs, are at work with a will and they are getting results.

Newark has made a sad mistake. Everybody realizes it and all regret it. More than this, the people demand a clean efficient administration of affairs and the public is aroused that the good work now well started will continue. Newark will never again be ruled by a mob or by the lawless element. It has had enough. The demand for law enforcement is so universal and so pronounced that it will not and can not

BEER DUMPED INTO CANAL BY TURNKEY

A large percentage of the population of Newark without exception, has been made much to be seen when they saw what the Turnkey was doing. The Turnkey was dumping beer into the canal and part of this population was trying to stop him in the street.

Fifty beer bottles of beer were dumped into the canal yesterday afternoon and the Turnkey was the man who did it. The Turnkey was seen by several people and he was seen to be dumping beer into the canal.

After with a bottle of beer and a can of beer, the Turnkey started in dumping beer into the canal. The Turnkey was seen by several people and he was seen to be dumping beer into the canal.

NOTIONAL CORN SHOW.
The fourth annual national corn show will be held in Columbus, O., Aug. 10-12-13.

THE NEW ROAD LAW.
Ohio's new road law provides that now, this law can pay for road purposes up to four miles. The law will also give a suitable person for road purposes, that person getting paid for \$500. Since 1907, a taxpayer has had to pay his road tax in money to the county treasurer. Now, the law has been changed and provides that he can work it out at the rate of \$1.00 per day and at a reasonable allowance for team and implements. If he prefers to pay his road tax in money that is his privilege. If he works it out the road superintendent will give him a certificate specifying the amount of tax so worked out, and the county treasurer shall honor all such certificates as money. The law further provides that the tax be worked out by Sept. 1.

be ignored. This civil reform movement is not temporary.

We have not the slightest hesitation in saying that Newark will profit by her error and will atone for her mistakes. Homeforth Newark will be a better place than ever in its history in which to live or conduct a factory or operate a business.

Now is the time we need the help of just such men as compose your splendid organization. It is now that your co-operation and sympathy will be appreciated to the fullest extent.

All Newark values the Holophane Company and appreciates its importance to her commercial interests. Newark stands ready to extend to you every courtesy at her command. We had hope, and still have hope, that you will place enough confidence in our people to believe that we are going to carry through the work that has just begun. The people here stand for law enforcement, for order, for the protection of people and property and property rights. We are not a lawless lot. We were lax and we allowed an irresponsible mob to ignore the law and commit a foul crime, but that act has taught a lesson that will be of value.

In this determination to bring about a permanent improvement we have the support of every good citizen. The people are determined to insist upon enforcement of the laws by present officials and are just as determined to elect in the future men who will enforce the laws.

We thank you for your courteous letter and beg to express the hope that you will place confidence in what we say, and that we may work together for our common good and for our mutual interests.

Yours truly,
THE NEWARK BOARD OF TRADE,
C. H. Spencer, President.

KICK OF HORSE BREAKS A LEG

William Pence, a farmer living near Pleasanton, was seriously injured Monday by being kicked by a horse. Mr. Pence got up early in the morning and found that the mare had a colic in the pasture field and went out to look at it. The mare resented his approach and kicked at him, striking him on the right leg above the knee, snapping the bone. Dr. Davis, of this city, reduced the fracture.
